

MOBIDERM®

A full day, practical workshop in the application & treatment of lymphoedema with Mobiderm®

This exciting and practically based workshop gives you the opportunity to acquire the skills to treat lymphoedema successfully in the reduction and management phase using Mobiderm.

At the completion of this workshop you will be able to confidently bandage your patients with Mobiderm and be able to troubleshoot complex patient presentations.

Following this workshop you will be able to commence bandaging your patients utilising the complete product pack that you receive with your workshop registration.

- + gain practical experience in bandaging arm/leg
- + gain practical experience in bandaging hand/foot
- + learn how the Mobiderm system works and how to adapt it to your patient's needs
- + learn how to apply Mobiderm to treat genital and torso oedema
- + gain practical experience in Biplast compression tape for hand/foot and trauma applications
- + be introduced to the Mobiderm autofit garment range
- + case studies on complex patients will be shown
